The music has developed through the years to a sound that today best can be described as **progressive metal with elements from thrash**. The material on “Truth Unmasked” has been worked on since 2002, and has been played live several times for example at the Hole in the Sky-festival in Bergen, and as support for Enslaved.

### **About “Faith (27.02.68)”**

This is a five piece concept about a woman who were raped repeatedly by her father as a child, and when she grows up, she think she finds relief in a Christian organisation lead by a charismatic person who claim that he can help Faith from the pains her father caused. His “help” consist of sexual abuse which only gains him. The concept is partially based upon a true story.
